GRAND TOTAL FOR THE YEAR, 655

Recognition as a State Normal School.

On the 17th of April, 1855, the County Superintendent of Lancaster county opened a Normal Institute at Millersville, which remained in session three months. This Institute was continued as a permanent Normal School, until its official recognition as a State Normal School on the second day of December, 1859.

The following Papers relate to its recognition :

REPORT OF INSPECTORS.

TO HON. HENRY C. HICKOK,

Superintendent of Common Schools :

The undersigned Inspectors, appointed by you, with the consent of the Governor, in pursuance of the requirements of the seventh section of " An Act to provide for the due training of the teachers for the common schools of the State," approved the 20th day of May, 1857, together with the superintendents of the counties of Lancaster, York, and Lebanon, whose names are last subscribed, do report :

That on due notice received from the Department of Common Schools, they did, personally, and at the same time, to wit : on Thursday and Friday, the first and second days of December, 1859, visit and carefully inspect the Lancaster County Normal School, located at Millersville, in said county, and after a thorough examination thereof—of its by-laws, rules and regulations, and of its general arrangement and facilities for instruction—we do approve the same, and find that they fully come up to the provisions of the " Act to provide for the due training of teachers for the common schools of the State," approved the 20th day of May, one thousand eight hundred and fifty-seven, and its supplement, approved the 15th day of April, 1859.

We, therefore, certify the same to the department of Common Schools, with our opinion that the Lancaster County Normal School has fully complied with the provisions of the said act, and its supplement, as far as can be done before going into operation under the same, and we unanimously recommend that it shall forthwith be recognized as a State Normal School, for the Second Normal school district of

Pennsylvania, composed of the counties of Lancaster, York, and Lebanon.

JAMES POLLOCK,
WM. M. HIESTER,
A. G. CURTIN,
JNO. L. ATLEE,
A. R. BLAIR,

Superintendent of York county.

HENRY HOUCK,

Superintendent of Lebanon county.

DAVID EVANS,

Superintendent of Lancaster county.

MILLERSVILLE, December 2d, 1859.

DEPARTMENT OF COMMON SCHOOLS, }
Harrisburg, December 3d, 1859. }

I approve the foregoing report, and forthwith recognize the Lancaster County Normal School as a State Normal School for the Second District, hereby certifying that I was present during the whole of the inspection, as required by law.

HENRY C. HICKOK,
Superintendent of Common Schools.

Notice of the State Superintendent.

DEPARTMENT OF COMMON SCHOOLS, }
HARRISBURG, December 3d, 1859. }

WHEREAS, The Board of Trustees of the Lancaster County Normal School, located at Millersville, in said county, by resolution, adopted at a meeting of the Board, on the 1st day of October, 1859, on file in this Department, made formal application to the State Superintendent for the privileges of an "Act to provide for the training of teachers for the Common Schools of the State," approved the 20th day of May, 1857; and the supplement thereto, approved the 15th day of April, 1859, and,

WHEREAS, In pursuance of said application, the State Superintendent of Common Schools, together with the Hon. James Pollock, of the county of Northumberland, Hon. William M. Hiester, of the county of Berks, Hon. A. G. Curtin, of the county of Centre, and Dr. John L. Atlee, of the county of Lancaster, "competent and disinterested persons," appointed by him, with the consent of the Governor, as Inspectors, and Dr. A. R. Blair, Superintendent of the county of

York, Henry Houck, Esq., Superintendent of the county of Lebanon, and David Evans, Esq., Superintendent of the county of Lancaster, did on Thursday and Friday, the 1st and 2d days of December, 1859, personally and at the same time, visit and carefully inspect said school, and after thorough examination thereof, and of its by-laws, rules and regulations, and of its general arrangement and facilities for instruction, by written report on file in this Department, approve the same, and find that they fully come up to the provisions of said act, and its supplement, and did certify the same to the Department of Common Schools, with their opinion that said School has fully complied with the provisions of said act, and its supplement, as far as can be done before going into operation under them :

Now, therefore, In pursuance of the requirements of the Seventh Section of the Act aforesaid, I do hereby give public notice, that I have officially recognized the Lancaster County Normal School, as a State Normal School, for the Second Normal School District, composed of the counties of Lancaster, York, and Lebanon, and that said School shall henceforth enjoy all the privileges and immunities, and be subject to all the liabilities and restrictions contained in said Act and Supplement.

{ L. S. } In testimony whereof, I have hereunto set my hand, and affixed the Seal of the Department of Common Schools, at Harrisburg, this 3rd day of December, 1859.

HENRY C. HICKOK,
Superintendent of Common Schools.

Provisions of the Normal School Act of Special Interest.

1st. Any board of Directors in the Counties of Lancaster, York, and Lebanon, can send one pupil to the school, annually, and pay for his tuition out of the Township School Treasury. Except those sent by Boards of Directors, pupils are received on the same terms, from all parts of the State, or from any other State.

2d. Students not desiring to make a business of teaching, can be admitted if there is room for them.

3d. Actual teachers can be admitted for any length of time not less than one month.

4th. The Diploma granted by the school, exempts the holder from examination, by any authority under the common school system, in all parts of the State; and "shall be received as evidence of scholarship to the extent set forth on the face of it."

5th. Actual teachers, without attending the school, may be examined and receive Diplomas.

6th. Bequests can be received and appropriated according to the wishes of the donors.

7th. The State Superintendent must approve the course of study, and the school is required to be always open to his visitation and inspection, as well as to the visitation and inspection of the County Superintendents of its proper Normal School District.

Model School.

The Superintendent is constantly in charge of the Model School. No student is permitted to teach in it, until he has acquired a thorough knowledge of the branches he is expected to teach and of the best method of teaching them. This is done not only as a matter of justice toward the children to be taught, but from a firm conviction that all skilful practice must be based upon correct theory. In virtue of this arrangement, the graduating class of the Elementary course, and such

other students of the Scientific and Classical courses as desire to obtain the Teachers' Diploma, become the Faculty of the Model School and do its teaching.

Every student-teacher is required to teach from one hour to two hours daily during a term. Each hears the recitations of a class for at least a month, and is responsible for its progress during that time, and, then, exchanges classes with another, between whom and himself, there have been mutual visitations, at recitation-time, in order to *harmonize* methods. The Programme of the School is so arranged that every student-teacher has practice, under the most careful inspection, in teaching all the common school branches, and when possible, some of the higher branches.

The student-teachers meet the Principal of the Normal School in regular recitation, to ask questions, hear suggestions, and consider methods of teaching.

Our Model School, organized according to this plan, proved during the past three years entirely satisfactory to pupils, parents, student-teachers, and the Normal School authorities.

Courses of Instruction.

[APPROVED BY THE SUPERINTENDENT OF COMMON SCHOOLS.]

MODEL SCHOOL COURSE.

The course of instruction in the Model School embraces the Alphabet, Pronunciation, Spelling, Reading, Writing, Drawing, Arithmetic, Geography, Grammar, Vocal Music, Object Lessons; and, also, if desired, elementary instruction in the Languages.

It is intended to make this department truly a *Model School*. A limited number of children from eight to fourteen years of age will be received from abroad, to whom the Institution will be made not only a *School* but a *Home*.

PREPARATORY COURSE.

The Preparatory Course is designed for older pupils than those who attend the model School; but the studies embraced in it, are essentially the same. Preparation may be made here, as well as in the Model School, for entering the higher courses. The classes are designated I, J, &c.

ELEMENTARY COURSE.

Students with a *fair* knowledge of the branches of study, required by law, to be taught in Common Schools, can enter this course and graduate in three years.

The Junior year of this course is intended to be occupied in a careful review of the branches previously studied. Those who do not need this review can enter at once upon the studies of the Middle year. The studies of the respective years are as follows:

JUNIOR YEAR.

FIRST TERM.—CLASSES G AND H.	SECOND TERM.—CLASSES E AND F.
Orthography and Etymology.	Orthography and Etymology.
Reading and Elocution.	Reading and Elocution.
Writing and Drawing.	Writing and Drawing.
Geography.	Geography.
Mental Arithmetic.	Mental Arithmetic.
Written Arithmetic.	Written Arithmetic.
Grammar.	Grammar.

MIDDLE YEAR.

FIRST TERM.—CLASS D.

Reading and Elocution.
 Drawing.
 Physical Geography.
 Higher Mental Arithmetic.
 Higher Written Arithmetic.
 Higher Grammar.
 Vocal Music.

SECOND TERM.—CLASS C.

Higher Grammar.
 History of the United States.
 Physiology.
 Elements of Algebra.
 Book-Keeping.
 Theory of Teaching.
 Vocal Music.

SENIOR YEAR.

FIRST TERM.—CLASS B.

Algebra, to Progressions.
 Elements of Natural Philosophy
 and Astronomy.
 Rhetoric.
 Geometry, (Five Books.)
 Theory of Teaching.

SECOND TERM.—CLASS A.

Geometry, (Completed,) Plane
 Trigonometry, and Surveying.
 Elements of Chemistry.
 Elements of Botany and Geology.
 Practice of Teaching.

SCIENTIFIC COURSE.

Entering this course with the required preparation, Students can graduate in two years. Those who graduate in the Elementary Course can enter the second term of the Junior year. It is the design of this course to prepare teachers for English High Schools.

The studies are as follows :

JUNIOR CLASS.

FIRST TERM.

Geometry, (Completed,) Plane
 Trigonometry, and Surveying.
 Botany and Geology.
 Rhetoric.
 Teaching.

SECOND TERM.

Higher Algebra.
 Zoology.
 General History.
 Teaching.

SENIOR CLASS.

FIRST TERM.

Spherical Trigonometry and Ana-
 lytical Geometry.
 English Literature, or Acoustics
 and Optics.
 Mental Philosophy.
 Chemistry.

SECOND TERM.

Differential and Integral Calculus.
 Astronomy.
 Moral Philosophy.
 Analytical Mechanics.

CLASSICAL COURSE.

This course is designed to prepare Teachers for Classical High Schools. To be admitted to the Freshman Class, a Student must possess a *thorough* knowledge of Geography, English Grammar, Arithmetic, Elements of Algebra, History of the United States, Latin and Greek Grammar, Cæsar (two books), Virgil (four books of *Æneid*), Greek Reader, and two books of the *Anabasis*.

The following are the studies of the several classes :

FRESHMEN.

FIRST TERM.	SECOND TERM.
Anabasis.	Herodotus.
Sallust and Ovid.	Cicero.
Higher Algebra.	Geometry, (Five Books.)
Rhetoric.	Zoology or Botany.

SOPHOMORES.

FIRST TERM.	SECOND TERM.
Iliad.	Thucydides.
Livy.	Horace.
Geometry, (Completed.)	Trigonometry and Surveying.
General History.	Geology.

JUNIORS.

FIRST TERM.	SECOND TERM.
Select Plays of Sophocles.	Select Plays of Euripides.
Tacitus.	Juvenal.
Conic Sections and Analytical Geometry.	Differential and Integral Calculus.
Chemistry.	Astronomy.

SENIORS.

FIRST TERM.	SECOND TERM.
Select Plays of <i>Æschylus</i> .	A Dialogue of Plato.
A Play of Terence.	A Play of Plautus.
Acoustics and Optics.	Mechanics.
Mental Philosophy.	Moral Philosophy.

Exercises in English, Greek, and Latin composition will be given throughout the whole course, and, also, such incidental instruction as is essential to a full understanding of the branches studied. Those who prefer it, may select the French and German languages, instead of the Greek and Latin of the Junior and Senior years.

Those who graduate in the Elementary course, and have the preparation in Latin and Greek required to enter as Freshmen, can join the Sophomore class ; but, by so doing, they must devote the whole of the Sophomore year to the study of the classics, reciting both with the Freshmen and Sophomore classes.

In special cases, other studies, equivalent in kind, may be substituted for some of those mentioned in the regular course; and ladies, unless they desire it, are not expected to study the Higher Mathematics.

If found qualified, students may enter an advanced class in either of the courses of study.

To all except experienced and successful teachers, an attendance upon two courses of lectures on Teaching, and practice in the Model School during one term, are indispensable to graduation. A Thesis upon some professional subject must in all cases be deposited with the proper authorities before graduating.

Examinations.

The Examinations are conducted by the Faculty of the School and by a Board of Examiners.

The Faculty first examine all candidates for graduation, and, if satisfied with their qualifications, they refer them to the Board of Examiners for further examination.

The Board of Examiners consists of such Principals of the State Normal Schools as may be designated by the Superintendent of Common Schools; and the examinations are to be conducted in the presence of the State Superintendent, and the County Superintendents of the Normal District in which the school is located.

The Board of Examiners may ask questions upon all the branches of study included in the several courses; but this examination is intended to have particular reference to the Theory of Teaching.

Diplomas.

A student graduating in the Elementary Course, will receive a Diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS; the Diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELORS OF THE SCIENCES, and BACHELORS OF THE CLASSICS.

Regular graduates who have continued their studies for two years, who have practiced their profession during two, full, annual terms in

the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the art of teaching from the Board, or Boards of Directors in whose employment they taught, countersigned by the proper County Superintendent, may receive second Diplomas, constituting them MASTERS in the several studies embraced in the courses in which they graduated, and conferring upon them corresponding professional degrees as follows :

TEACHERS OF ELEMENTARY DIDACTICS.

TEACHERS OF SCIENTIFIC DIDACTICS.

TEACHERS OF CLASSICAL DIDACTICS.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to Actual Teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted.

1. All applicants must be twenty-one years of age.
2. They must have taught in Common Schools during three, full, annual terms.
3. They must present similar certificates, in regard to moral character and skill in practical teaching, to those presented by the regular graduates, and have them signed by the same school officers.
4. They must be examined in all the branches they desire named in their Diplomas; and these examinations must be at the time of the annual examinations at the schools where application is made.
5. A Thesis on some professional subject will be required as a part of the examination.

The Diplomas, granted in accordance with these conditions, will contain an enumeration of the branches of study in which the holder was found proficient, and confer upon him the professional degree to which the extent of his knowledge may entitle him.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

Methods of Teaching.

THE Methods of Teaching practiced in the school are those which, after careful consideration, seem best adapted to train teachers.— Teachers as guides to others, need, at least, three things: 1st, A thorough knowledge of the branches of study they propose to teach; 2d, The best methods of teaching those branches; 3d, Ability to in-

struct—to lead the young mind judiciously from the known to the unknown.

Effort is made to find the natural order in which the various branches of knowledge and the different parts of the same branch should be studied ; and, then, students are required not only to *know thoroughly* but to *tell* what they know in a clear and logical manner.

Academies and Colleges profess to discipline mind and impart a knowledge of the various branches of study ; and, in this respect, their object and that of a Normal School are similar ; but the peculiar object of the latter class of educational institutions is to train persons to be *skilful in imparting instruction*.

Among our students, there are some who are seeking a general education, without designing to become teachers ; some, too, who having obtained a good general education elsewhere, study teaching almost exclusively ; but the majority pursue such a course of study as seems best calculated to attain both these objects at the same time.

In all the classes and throughout all the teaching, it is never lost sight of that the grand aim of the Institution is to *train teachers*.

Terms.

The school year is divided into equal sessions. The first session commences on the first Monday in April, and continues twenty-two weeks; the second, on the second Monday in October, and continues also twenty-two weeks. The spring vacation is three weeks. The Fall vacation five weeks. A quarter is a half a term, or eleven weeks.

Pupils from abroad, entering the Model School, are charged \$6.00 per quarter for instruction in the regular branches taught in the school.

For instruction in the branches embraced in the Preparatory and Elementary Courses, including Vocal Music, Drawing, and Double-Entry Book-Keeping, the charge is \$9.00 per quarter; and in those of the Scientific and Classical Courses \$11.00 per quarter. If any member of the Preparatory or Elementary classes, study one or more of the Ancient or Modern Languages, in addition to his English studies, he will be charged \$11.00 per quarter. For those who pay \$11.00 per quarter, there are no extra charges whatever except for Instrumental Music.

If a pupil study only one or two special English branches, no deduction will be made from the regular charge, unless by express agreement to that effect.

If any one study languages alone, he will be charged \$3.00 per quarter for each language studied.

The charge for instruction in Music upon the Piano or Melodeon, including rent for instrument, is \$9.00 per quarter.

For instruction in Music upon other instruments, special arrangements must be made with the Professor in this Department.

The charge for boarding, washing, and light, is \$2.50 per week; for boarding alone, \$2.00.

The lowest charge for a quarter, including tuition, boarding, washing, light, &c., exclusive of Instrumental Music, is \$33.50; and the highest, \$38.50. It is hoped that a sufficient appropriation from the State will soon enable the Trustees to reduce their rates of tuition for such as desire to become teachers. The cost of boarding and tuition here, however, is not greater than boarding alone at most of the other State Normal Schools in this country.

All students, entering for a term, will pay, in advance, \$10.00 on account for tuition, and \$27.50 on account for boarding; and, for a

quarter, one-half of these amounts. Students can enter the school at any time during a term ; but all are advised to come at the beginning.

All money, paid to us on account, will be refunded in case of personal sickness ; but if a student leave the school for any other reason, payment for a full quarter will be exacted. No deduction will be made for sickness in the Institution or for voluntary absence from class.

No deduction will be made for a less time than a quarter, unless by express agreement, made at the time of entering. All persons that engage rooms before the opening of the school, will be charged from the beginning of the term. If anything occurs to prevent a student from coming, after having engaged a room, he should inform us immediately to that effect. All engaged rooms, unless there be some special understanding to the contrary, must be occupied by Wednesday following the opening of the school, or all claims upon them will be forfeited.

Every pupil must furnish his own towels, and should have all articles of clothing marked with his full name.

Gentlemen are permitted, without extra charge, to have ten pieces washed each week, and ladies, eleven.

All bills for boarding must be settled with Mr. D. S. Bare, the Steward of the Institution, and those for tuition, with the Principal, who acts in behalf of the Trustees.

When all the rooms in the boarding house connected with the school, have been engaged, students can be pleasantly accommodated, without extra charge, in private families in the village near the School.

No student will be received who does not board in the boarding house, unless he has had the permission of the Principal to board elsewhere.

Text Books.

Text-Books are furnished for Cash, at Philadelphia retail prices. Students desiring to do so can rent their books by paying one cent a week for each book, when returned clean and uninjured; if returned otherwise, the full price of the book will be charged. The Text-Books used at the present time are as follows: Sanders', Towers', Sargeant's, Parker & Watson's, and Hillard's Readers; Warren's Physical and Common School Geographies; Cornell's High School Geography; Greene's Grammar; Ray's Written Arithmetics; Brooks' Mental Arithmetics; Ray's Algebras; Davies' Legendre's Geometry; Cutter's Physiology; Quackenbos' Rhetoric; Lossing's Histories; Davies' Trigonometry and Surveying; Wells' Natural Philosophy; Wells' Chemistry; Gray's Botany; Agassiz' Zoology; Page's Theory and Practice of Teaching; Tenney's Geology; Church's Analytical Geometry, Calculus, and Conic Sections; Peck's Mechanics; Jackson's Optics; Foster's Acoustics; Bartlett's Astronomy; Hickok's Psychology and Moral Science; Woodbury's German Series; Fasquelle's French Series; Andrews and Stoddard's Latin Grammar; Crosby's Greek Grammar and Greek Lessons.

Government.

In the general government of the School there is but one rule, viz: —*do right.*

The *reason* upon which are founded the particular regulations that it has been thought necessary to adopt, may be found upon making an application of the two following principles: 1st. No student should be allowed to trespass upon the rights and privileges of another.

2. Privileges that all cannot enjoy should be granted to none.

It is taken for granted that every student who enters the school is disposed to do right, and to obey the particular regulations of the school, and implicit trust is placed in his sense of honor and propriety.

Parents and guardians are earnestly requested not to send us persons who have contracted bad habits, as the safety of others will demand their dismissal.

Every care is taken to remove temptation to wrong-doing, but upon the discovery that a student *cannot be trusted*, he will be removed from the school.

Applications for Teachers.

Many Principals of Academies and Seminaries, and Directors of Common Schools, apply to us for Teachers. We are always glad when we can answer such requests by furnishing good teachers, but we are better able to do so near the close of each term. Our friends must not suppose, however, that *all* persons who attend our school for three or six months, can be made good teachers.

We are willing only to be held responsible for the teaching of our graduates.

Literary Societies.

Among the attractions of the School are two flourishing Literary Societies, conducted by the students—the “Page” and the “Normal.” They hold weekly meetings. They have, together, about 2,000 well selected volumes in their Libraries, all collected within a recent period.

Any student can become a member of either of these societies by paying a small initiation fee.

Miscellaneous.

The Normal School buildings are large, the east front being 252 feet, and the south front 160 feet, and conveniently arranged. There are boarding accommodations for 300, and school accommodations for 400, students. The buildings are surrounded with grounds to the extent of ten acres, which have been laid out and are used for play and pleasure grounds.

The cost of the buildings and grounds is about \$60,000.

The Male and Female departments are entirely separate, each sex

occupying a different building. Both sexes, however, meet at lectures and in recitations; and, we think, the presence of each has a beneficial effect upon the other.

The Institution already possesses considerable philosophical apparatus, and provision has been made to increase it. It possesses also a fine cabinet of Mineralogical and Geological specimens, and further contributions of this nature are solicited from its friends. The ladies have a Hall 112 feet long and 30 feet wide, which is devoted to gymnastic and callisthenic exercises. The gentlemen, also, have ample play grounds, and considerable gymnastic apparatus.

Millersville is a pleasant, rural village, situated three miles from Lancaster city. A fine turnpike road connects the two places, and stages leave Lancaster at 2 and 3 o'clock, P. M., daily, and an omnibus at 8 and 11 o'clock A. M., and 6 o'clock P. M. The omnibuses leave the Cadwell House or Kauffman's Hotel, both near the Railroad Depot, and the fare to the School is 15 cents.

There are churches of several denominations in the village, and frequent religious services are held in the School Chapel. The Institution is in no sense sectarian; but students will be required to attend such church as their parents may indicate, otherwise, they can make their own selection.

We have full faith in the doctrine that man's moral nature needs culture quite as much as his intellectual, and the greatest care will be taken to form good habits and instill correct moral principles. Situated in the country, the location of the Institution protects it from those numerous temptations to vice and to an expensive indulgence in scenes of pleasure, which are always found in large cities and towns.

All letters making application or desiring information, should be directed to the Principal, Millersville, Lancaster county, Pa.

Regulations for Students.

1. Every Student is recommended to provide himself with *slippers*, that in passing up and down the stair-ways or through the halls, he can walk quietly. No one must indulge in loud talking, whistling, or other unnecessary noise in the buildings.

2. The use of tobacco, in any form, is strictly prohibited in the buildings or about the grounds.

3. The Students shall repair to their rooms at the ringing of the bell for evening study, and not leave them without the permission of the teacher in charge; and, in twenty minutes from the ringing of the retiring bell, all lights must be extinguished, and all noise cease.

4. Every Student will be expected to be present at the daily opening and closing exercises of the school, and at all general exercises in the Lecture Hall, unless excused ; and permission to be absent from a recitation should always be obtained from the teacher in charge of the class, *before* the absence occur.

5. Students are allowed to walk for exercise in the vicinity of the school, but no one, otherwise will absent himself, without permission from the Principal.

6. Each Student will be held accountable for damage done to his room or its furniture, or to any of the property of the Institution.

7. No nails must be driven into the walls or ceiling, or alterations be made in the windows, doors, or any appendage of the rooms, without the permission of the Steward. The Steward will visit each room, at least once a week, and, if damaged, it may be repaired, or, if unnecessarily dirty, it may be cleansed, at the expense of the occupant.

8. No water, dirt, or other material must be thrown from the porticos or windows.

9. Students are not allowed to visit one another's rooms during the regular hours of study ; and no change of rooms must take place without permission from the Principal.

10. Each Student of Music on the Piano will have a regular hour assigned for practice, during which time, no spectator must be present to interrupt the exercise or divert the attention.

11. All Students who are tardy unnecessarily, at meals, must forfeit them ; all must conduct themselves at table in a becoming and orderly manner, and no one must leave before the rest without good reason and permission from a teacher. Any Student, sick or indisposed, and requiring attention, must have himself reported to the Steward and he will be waited upon in his room.

12. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but no conversation between the sexes must take place in the Lecture Room, in the Recitation Rooms, or in the Halls. At the close of evening lectures or society meetings, all will repair immediately to their respective rooms. Neither sex will be expected to trespass upon that portion of the building assigned to the other.

13. No lady or gentleman attending this Institution will walk or ride with a person of the opposite sex, except in cases of necessity ; and, then, only with the permission of the Principal.

14. Gentlemen Students having sisters or other female relatives in the Institution whom they wish to visit, will receive Visiting Cards which will admit them to the privileges of the Ladies' Parlor on such days and at such hours as may be agreed upon. Students of the two sexes other than relatives cannot meet privately unless upon business, and then, only by the special permission of the Principal. Gentlemen, not Students, desiring to call upon ladies connected with the

Institution must obtain permission from the Principal. Except for special reasons, no visiting will be permitted on the Sabbath.

15. Parents and other relatives from a distance, can see ladies in the parlor, and gentlemen in the reception-room appropriated to them.

16. All Students desiring their friends to remain at the school for meals, in order to secure seats for them at the table, must give due notice to the Steward.

These regulations have been adopted after very careful consideration as to what would best promote the good of the Institution and of those connected with it. It is hoped they will recommend themselves to the good sense of every Student, and be obeyed because they are reasonable and right.

Calendar.

1862.

AUGUST 15th, FRIDAY.—Examinations of candidates for graduation begin.

SEPTEMBER 1st, MONDAY.—Term Examinations begin.

SEPTEMBER 3d, WEDNESDAY.—Closing Exercises of the Model School.

SEPTEMBER 4th AND 5th, THURSDAY AND FRIDAY.—Meetings of the Alumni.

SEPTEMBER 5th, FRIDAY.—Commencement.

FALL VACATION—FIVE WEEKS.

OCTOBER 13th, MONDAY.—Winter Term begins.

1863.

JANUARY 30th, FRIDAY.—Anniversary of the Normal Literary Society.

MARCH 9th, MONDAY.—Term Examinations begin.

MARCH 11th, WEDNESDAY.—Closing Exercises of the Model School.

MARCH 13th, FRIDAY.—Closing Exercises of the Normal School.

SPRING VACATION — THREE WEEKS.

APRIL 6th, MONDAY.—Summer Term begins.

APRIL 24th, FRIDAY.—Anniversary of the Page Literary Society.

AUGUST 14th, FRIDAY.—Final Examinations of the Senior Classes and candidates for State Certificates begin.
